- 10. Evaluation and Research Skills
- 11. Knowledge Base

Qualities

Connections to the community and shared life experiences are among the most critical qualities of CHWs, according to the C3 Project, which chose to endorse the qualities set forth in the National Community Health Advisory Study (1998) and other past research. Some other notable qualities of CHWs include: courageous, outgoing, honest, open, reliable, compassionate, resourceful, and determined.

The proposed roles and competencies are intended to inform CHW education, practice, and policy.
